Im gonna start with some of the conclusion are still speculative. But the information speaks for itself.

So lets go back, u/ratioatblessons first mention was here. [https://web.archive.org/web/20210425024545/https://www.reddit.com/r/Superstonk/comments/mxz4hv/like_insta_game/](https://web.archive.org/web/20210425024545/https://www.reddit.com/r/Superstonk/comments/mxz4hv/like_insta_game/)

So. Notice SAVA on the list. well u/pop-Tart_Rabies_Monk appears to get it.

So whats up with these companies?

Well you can notice the location of each company, texas, typically austin texas. Some of these companies are located in the same building or next door.

[AUSTIN, TX](<https://preview.redd.it/sjan1kcxi371.png?width=1008&format=png&auto=webp&s=36f2e6a2816033dcf63162cd47eb0a464640b378>)

It is my belief these are the companies Citadel and friends are shorting.
Some of these companies are ones citadel want to succeed.

So lets just shimmy on over to the graphs, Im gonna be lazy and just pull the first 5 companies.

[% Graph](<https://preview.redd.it/e2s32p57kh371.png?width=1541&format=png&auto=webp&s=3ebd4e3e28d8124b66bcadd347d2fb128afaafcf>)

Notice anything early similar. Up until Mid may or so? I believe this when the citadel & friend started to have to close their positions, or have a change in plan.

For instance Lets take GME, SAVA and SONM

<https://preview.redd.it/oh96n4f3lh371.png?width=1478&format=png&auto=webp&s=92407deb978640641f389c2ed705330ce41fcbeb>

Its looks like the the move moves from stock to stock day to day, they are either perfectly in sync of they do the exact opposite.

Lets take a look at DELL, MNRL and GME

<https://preview.redd.it/vlhv8pfemh371.png?width=1547&format=png&auto=webp&s=8b7d63e297faab2e47f7ca22f7668a77bcc3a467>

One more if your not convinced.

[Notice the CC indictor at the bottom. ITS almost 1 at all times until it does the exact opposite CRUS v SLAB](<https://preview.redd.it/tn1cmjsrnh371.png?width=1256&format;=png&auto;=webp&s;=b53b6e5bdc8fab20bb363fe97b366f498d4af6de>)

How about BTC, GME & SLAB?

[How the sharp rises and drops that line on certain days?](<https://preview.redd.it/jh6it355ph371.png?width=1483&format;=png&auto;=webp&s;=fa3bcfa915b48ffa5fc685304ee3261ea74eeba3>)

Same basic thing. I believe citadel and friend just cycle between these stocks, shorting, covering, ftd cycles. On on and between all these companies. Winning on some days, losing on the next.

Lets just take a look at some snapshots from around jan 28 from the 59.

[Dip that day then peak.](<https://preview.redd.it/8cbt3olmsh371.png?width=1545&format;=png&auto;=webp&s;=19db848ca56ec77908058521913fcfa9b9fa8ebe>)

[peak the day before, drop then re-peak. Money in, money out. Money in.](<https://preview.redd.it/x0d1jdlos371.png?width=1538&format;=png&auto;=webp&s;=02913fcd14d9aa37d7e8957b59115968d25fd0b3>)

[Were they squeezed a few days later??](<https://preview.redd.it/mkrcvbfssh371.png?width=1513&format;=png&auto;=webp&s;=59d40b0620851d820ad76b5f96119e600e4e4417>)

So Lets take a look at some of the holders.

So picking at random. lets go with HYMN
(sorry for the old data, im pulling this from when i originally looked. and whale wisdom is down ATM)

[blackrock and vanguard](<https://preview.redd.it/1i8kn0tvqh371.png?width=1438&format;=png&auto;=webp&s;=46737a325207c0aab86b8f1a1f83d96478df605a>)

and citadel position

[hmm puts](<https://preview.redd.it/es0k1svyqh371.png?width=1433&format;=png&auto;=webp&s;=c5b8ae1f251fac3e46f4e9742463ccf1f02c4475>)

Or Lets try INN

[blackrock and vanguard](https://preview.redd.it/jxhywae2rh371.png?width=1437&format=png&auto=webp&s=84d85e2f048b933bc5f20e6b7b7354092aed0d9a)

[hmm no shorts.](https://preview.redd.it/2j1gmou6rh371.png?width=1435&format=png&auto=webp&s=d513e6d75e0ac9c4ff4e801358b403ac2d1a944)

umm TFFP

[blackrock vanguard](https://preview.redd.it/54xmlizdrh371.png?width=1430&format=png&auto=webp&s=66d9068951c564f9ba0225ad65c5c2ddc3801193)

[citadels position](https://preview.redd.it/qp2cehyfrh371.png?width=1429&format=png&auto=webp&s=f360cf0642a5da8155a50787d4a44644d189f21b)

The list goes on and on.

However i can assure you Blackrock and Vanguard have large stakes in almost every single one of these companies. And i can assure most of the time Citadel and its known friends have Puts. (Think Susquehanna, Jane street etc.)

I think BlackRock and vanguard want to destroy citadel.

Remember that these data is always just a snap shot in time, and can be completely different the day after this information is made public.

WHAT DOES THIS ALL MEAN? Texas, Naked Shorting, Squeezes, Money in money out of these stocks?

Well. IMO its multiple things all at once.

\-Its asset striping explained in this post. They destroy the companies to buy their assets for cheap.
https://www.reddit.com/r/GME/comments/n1x909/companies_destroyed_by_hedge_funds_how_gam_estop/

\-Its also double dipping, destroy the competition so their long position can make more money. as explain by this post.

& This post.

\-You know what else you can do with these real estate assets you have now acquired by destroying those companies? Make more money of course. Explained by this post. You think bonds are the own way to make leverage for cash?

\-Which has had a direct result in. A CBMS bubble.

For a bit of background, lets start with Dr.Burry.

<https://youtu.be/1CLhqjOzoyE>

Lets start with some very interesting answer in that video.

1. Question: Why are home prices diverging up and away from the household income trendline?

Answer: ***If its not income, its leverage.***

2. Question: What exactly are the incentives of lenders that make mortgages only to sell them on through to wall street? Answer: volume at the expense of credit standards.

3. Question: When interest rates bottom, how far could lenders push mortgage terms in order to keep refinancings, home prices, and loan volumes rising? Answer: the answer to this question would put a ticking timer on the boom and a date on the crash.

\-You can also what else you can do with these real estate assets. launder money of course.

So Why Texas?

" As of November, 35 companies had relocated to or opened new facilities in the Austin area in 2020 alone, according to data from the Austin Chamber of Commerce. "

Texas has no state income tax.

Its also next to a certain university.

Interesting Side note.

Ever wonder why rich people by houses in Texas and Florida, Its typically because they do illegal shit.

Texas Homestead Law.

Personal property that can be seized in a judgment is the type of property that does not meet one of the numerous exemptions available under the Texas Constitution, [Texas Property Code

41.001](<https://statutes.capitol.texas.gov/Docs/PR/htm/PR.41.htm>), Texas [Property Code 42.002, Texas Property Code 42.0021](<https://statutes.capitol.texas.gov/Docs/PR/htm/PR.42.htm>), the Texas Homestead Law and other applicable laws. If that seems like a lot of legal protections, *it is*. **Texas is a virtual stronghold of property protections from creditors and is one of the safest states to lose a judgment in the United States.**

For most families, property that can be seized in a judgment is a small percentage of what people own. The type of property that can be seized may seem like a luxury to a person faced with collection efforts – such as jewelry above a certain protected amount, a hunting or fishing cabin, a timeshare or other vacation home.
