If brokers block the buy button for AMC or GME you should still be able to buy shares directly through Computershare their transfer agent unless regulatory agencies are halting trading:

[GME Direct stock purchase plan](<https://www-us.computershare.com/Investor/#DirectStock/Summary?IsuerId=SCUSGME&PlanId;=SPP1&sv;=t>)

[AMC Direct stock purchase plan](<https://www-us.computershare.com/Investor/#DirectStock/Summary?IsuerId=SCUSAMCE&PlanId;=SPP1&sv;=t>)

Edit: Also once the trade is settled since Computershare is the transfer agent all shares will be registered in your name rather than the name of a broker.

Edit 2: You can call their shareholder services number in the case of internet failures: 800 522 6645 for GME and 800 962 4284 for AMC.
