Just curious how it paints the tape! check it out with me! looks like it will be about 100 shares worth..

I will try and route through NYSE and not auto..

Ugh i need 250 char limit.. how do i do that?? this is now just fluff to meet the character limit.

Ugh i need 250 char limit.. how do i do that?? this is now just fluff to meet the character limit.

Ugh i need 250 char limit.. how do i do that?? this is now just fluff to meet the character limit.

RESULTS:

Nothing happened! lol NYSE won't fill so i chose NASDAQ instead.

Other thoughts: (Apologies if not cohesive, trying to type it all before i forget)

I thought it will have an impact since it was after hours plus the min by min volume i see is very low. Maybe because i also do not have full level 2 so maybe there's lots more volume i don't see. It was interesting to see as soon as i place the order, the "ARCA" orders followed.. Coincidence? probably...

I also noticed there were gaps in the min by minute candles.. so it looks like in low volume orders are being bundled up then executed at the same min.. not sure what dictates this.. Example i see 300 volume at 4:03PM, next is 100 volume, 4:06PM...

Even when i placed my order at 4:20PM, next candle i see is 4:41PM with 158 volume... why was the "ARCA" orders not counted at 4:20PM??
