This is the help page from my broker

<https://help.hatchinvest.nz/en/articles/1804597-do-i-own-my-shares>

The wording makes it seem promising that I already have proper ownership of shares?

Do you think that's ok?

Or should I try to work out how to register with Computershare?

Edit: I asked Hatch if GME where to offer NFT dividend, could we receive it through Hatch?

Their reply was basically: Maybe in the future, but GameStop first would need to announce instructions how Brokers could integrate with the process

Hatch sounded receptive to the idea, just need the instructions... Makes me hopeful!
