

Title: It seems like we're all hoping the entire stock market collapses, and only GME will be left standing and thriving. My question is, don't many of you have other stocks in your portfolio?

Will GME skyrocketing make up for the losses elsewhere? Help a guy understand.

I also have inheritance tied to the stock market, and likely no GME in there. If things go to shit, is my inheritance done for as well? Thank god I'm holding a few shares of GME!
