Here is the thing, January 2021 spike on retail buying tops at \$483 is a BIG PRIMARY CYCLE WAVE-1, then robbinghood turn off buy button it crashed to \$38 is INTERMEDIATE wave-A, fail to report / deliver cycle rinse & repeat jumped to \$348 is INTERMEDIATE wave-B. Since then we have been oscillating within INTERMEDIATE wave-C hitting this 2022 low around \$86.

The roller-coaster between Mar2021 low \$118 to Jun2021 high \$344 is still within corrective phase MINOR wave A-B-C three legged wave pattern that ended this year 2022 low at \$86 in January.

Jun2021 high \$344 to Aug2021 low \$145 is MINUTE wave-a then the jump to Nov2021 high \$255 was MINUTE wave-b. Fast forward to now, Nov2021 high \$255 to Jan2022 low \$86 is MINUTE wave-c COMPLETED THE WHOLE CORRECTIVE PHASE OF PRIMARY CYCLE WAVE-2 within a f*cking complex INTERMEDIATE A-B-C pattern that evolved into MINUTE double zig-zag A-B-C that give birth to another bastard MINUTE 5-3-3 a-b-c zig-zag pattern completed at \$86 2022 ALL-TIME-LOW!!!

Because from here onward we are UNFOLDING SUPER IMPULSIVE PRIMARY CYCLE WAVE-3! This is 🌟📈🚀 ROCKET 🌈👩🏻🏎️🏆🏆🏆🙏 train that you don't want to stand in the way. If you are not riding it at least don't f*cking stand in the way. We will run you over like we are doing with Russia!!! GME-TO-THE-MOON 💎🕶️
