So we all saw the tweet by now, and as ideas start bouncing around I would like to point out a quick lead for others to look at as well. I went to the wiki and one of the sources seemed interesting.

The very first thing on the article is this tweet by president Obama. I find it interesting that the tweet is about voting on a supreme court judge and today a supreme court judge retired and we began talking again about timelines. Today Biden announced that he will have a selection made by the end of February.

\#DoYourJob

Who the hell is he telling to do their job? The Fed/SEC/Hedgefunds or Apes? If its apes this means 2 of 2 things. 1) our job is to DRS (but we have been doing that so he doesn't need to tell us to) 2) HODL GME. When is it time to do our job? (I mean after all this whole tweet is about timing). When this thing takes off and we start seeing 6 - low 7 figure numbers.

So if I am going to end with anything it's this #DoYourJobDRS

Lets get it trending.
