They are allowed to continue cheating and all shares just quadruple.

The opening of the 22nd, it's ON! Can you imagine a broker not being able to provide the additional shares?

Example,

On the 21st my 1 share was worth \$135.

On the 22nd my 1 share reflects the quartered price of \$33.75 because my broker cant provide. How many phone calls to Gamestop investors relations will allow them to call out the DTCC? Look how fast Fidelity "corrected" the situation this morning.

The morning of the 22 is going to be very telling for us.

What a journey! ■
