Now we need your help to go viral!! WWW.DRSGME.ORG is NOW ready to begin its advertising campaign! We want to reach and educate millions, not just thousands, about DRS.

Our goal from the beginning was to lock the float by educating the masses outside of Reddit about DRS, thus exposing the corruption of Wall Street and likely launching MOA*S.

But, in order to be able to launch a huge global advertising campaign, we obviously need your **support!** So, please see the new, GREEN addition to the website and do what you can to help us share this information with the world. "Do what you can" is all the more I can say without breaking the rules here. The site itself is not monetized. u/derhyperschlaue and I have paid for everything out of our own pockets. However, we obviously can't do that with the advertising campaign.
