I have lurked way too long. GME is what keeps me going. Now, this Swedish ape is preparing to Direct Register Gamestop shares! 2xx will follow! Hodling since Jan21.

IKBR -> Computershare took my friend like 2+ months.

I want to say something. Swedish people have something called ISK (Investment-Savings Account) and we pay ( 0.00375 ) meaning **\*\*0.375%** of your account per year<sup>\*\*</sup>. I know our brokers just buy the shares through custodians and they are surely subject to all manipulation.

We can **\*\*not\*\*** transfer our shares from ISK to IKBR (or other broker) to Computershare.

So after my eagle has landed, I will increase my CS count to 2xx!

One reason that some (my self included) may choose not to DRS is because we **\*\*cant\*\*** transfer from ISK. And, if we use the other type of accounts (not ISK) then we pay 30% tax on profits **\*\*and\*\*** we have to declare our purchases/losses to the tax authority **\*\*manually\*\***, in **\*\*ISK\*\*** it is automatic.

I will DRS. Infinity pool and **\*\*NO CELL NO SELL\*\***.

**\*\*"ROHIRRIM!"\*\***
