These assholes control the market(s). Their buddies run the SEC, and the corrupt government has their backs. In what reality do you honestly think that they are just going to NOT shut off the buy/sell buttons, steal your money, or lock you out of your brokerage. Just an FYI the revolutionary War began due to a 4% tax increase on tea. Gamestop, eh em cee, and the like will indefinitely be suppressed until these too big to fail institutions figure put a way to profit off of their own fuck ups. Get fucking mad.
