LEGITIMATE CONCERN.

So, im a Europoor, and ever Since i got involved in Jan, im 100% GME, had 20 posistions or so, and good green portfolio. I since realized the market was a scam.

I was originally 50% drs'd, but have since added to my possition and I was about to drs the rest of my shares. . And now, unfurtunatly i have more at my shit broker than i have at CS, and it makes me very uncomfortable.

IBKR made it much "wierder/harder" to DRS. They removed the way to add shares to an existing DRS account, which i waited 8 weeks for. So my questeion to you is:

Do i need to wait another 8 weeks for a new account to be made, with hard-ass-nipple-tataas again + anxiety?

Will the synthetics in my broker be at risk of force liquidation, and what happens when the shares are "being found" and are "in transit?"

Just a sidenote, on the 30. of april, im gonna get an ape tattoo as a forever reminder of what i believe is an important fight. Will post for proof.

F0cK the h3dgies. They be buying liverpool FC now. wtf.

Happy Sain patricks day to everyone and last but not least.

BUY, HOLD, DRS and Shop.
