It's my observation looking over all of the different GME subs, that there is a restlessness and angst that is probably going to boil over pretty soon if we don't start getting some resolution or CONCRETE steps in place to end the rampant fraud and get true price discovery soon.

The RC tweets are fun, but within a day or two people are fighting with each other on every sub over DRS, TA, and a host of other things.

Don't know how much longer Helms Deep is going to hold, but I still will. Maybe it's time to give Reddit a break.

Anybody else noticing the extra tensions in the subs lately though?
