This guy literally is one of many who the world would be a better place if he literally just stopped breathing. He's definitely behind all the shenanigans and his recent activities suggest even more so. Sad the world has people ( if that's what you want to call it) in it.

Mr. 🪑👤, tear down this WALL STREET!

Yes he's a shit, but it's a systemic problem. Some other shit is just waiting to take his place when he falls. That's why the only way to solve the problem is to change the system.

There will always be "another" Ken Griffin, Vlad Tenev etc. People will sell their souls for money. Thankfully, there will also be more Keith Gills, Ryan Cohens, Larry Chens And the like too. No dark without the light
