A very voting welcome Apes.

About 11 months ago u/Blauer\_Chip did a list of brokers that allowed to vote. Back then nearly nobody's shares were DRS'd.

Things surely changed and I as many Apes already voted via Computershare, also receiving a control number via mail.

Since institutional ownership + insiders declined from 62 to 30% and DRS'd volume was at roughly 9m shares end of January, there have to be many Apes still owning at least some GME at their brokerage / banks.

So this post is all about checking if there remains one or more brokers who actually allow to really vote by providing the control number. If you are or know an Ape at a brokerage, please provide your feedback in the comments.

I'll update the table below:

Broker/Bank	Provided Control Number	Votes on ones behalf	Not possible	Was possible in 2021? (via proxy or control #)
TradeRepublic				
SmartBroker	x			
eToro	x			
ScalableCapital				
onvisita
