I DRS'd 90% of my GME shares about six weeks ago. Since then I have been buying a couple shares on every pullback. Because of that I always had unsettled purchases that prevented me from DRSing. I thought it was more important to buy than DRS, but today I finally had a chance to get caught up on my DRSing. I am relieved and feel much more comfortable heading into the stock split/dividend and all the craziness that seems imminent. ■■■■■
