BBBY was the new distraction. They wanted to make it look like it was gonna be next GME and that we should not miss the train this time, and maybe have gme apes sell gme and buy bbbby.

All the cramer ramblings and rantings, being angry telling his followers that this is manipulation and that BBBY should sell more shares, wasnt genuine at all. He played retail. He knew retail(apes) loves to do the opposite of what he tell them to do. It was his gameplan and it worked.

They wanted to blame Ryah Cohen for all this mess and make retail hate him.

I was this close to buy BBBY, but I didnt. only thing that held me back was cramer tweets. something didnt smell right.

I believe everything that has happened in the last few days was their plan.

GME BUY HOLD DRS. Everything else is just noise.
