Woah,

I'm still in awe at the magnitude of what we're looking at here. And if you want a preview of the future of the GameStop NFT market, then you need to start playing Gods Unchained. Think hearthstone with crypto value to the cards. I purchased my first genesis because this thing will be in the same category as MTG Alpha collectibles. And then I went ahead and bought two shiny packs and four legendary to add the first GME/IMX affiliate cards to my wallet

Suppose you're looking for a way to mine/farm IMX at no cost. Or even if you want a sweet PC Card game to play. Sign up using my referral code xGsElinpGD and start with free decks today so you can begin earning IMX today. I recommend the nature deck to start.
