Oh sure! I get chastised at work for being too wordy, then my post here gets removed because its too short! What the heck?! I read the rules and didn't see any minimum number, so now I feel compelled to ramble on in hopes of exceeding the magic number. Oh yeah, I have to use "GME" and/or "Ryan Cohen", so the bot doesn't think I'm a spammer. Not a problem. I dream of the day GME MOASSes and I get to meet my Daddy, Ryan Cohen on the moon!

I was introduced to GME, Reddit, and Superstonk in August 2021. I've learned so much since buying my first four shares of GME! I've learned about market fuckery being why my retirement funds haven't grown as expected. I've morphed into a retarded Ape. I wake up in the middle of the night to see what GME is doing in other markets before the U.S. market opens. I don't even know how many acronyms I've learned! Now all but 1.9 shares are DRS'd with ComputerShare, and I buy more every time the dips allow. Thanks Kenny!
