Calling all ****Non-US apes - the time to DRS is now!**** There are many ways to DRS gamestop for us non-US residents, my chosen way was through giveashare - the process to open a Computershare account took 2 weeks only!

The sooner we make it to 100% DRS, the sooner the scumbags on top will have nowhere else to go, nothing else to hide, their last mayo jar empty and ready to give up!

Each and every share out there is still worth 1 share to CS, so when the DTCC decided to call it a normal split, they were betting the whole market on the premise that a majority will sit back and still do nothing, even if ****the ability for us to 100% DRS just got 4x EASIER****

If somehow you have been sitting on the fence all this time (like me until a few weeks ago) PLEASE consider this post to be your CALL TO TAKE ACTION! The resources are all here, the community is behind you, what more could you need to get the ball rolling?
