my brokers to DRS my shares and that's all I need to do? Or do I need to provide information like an account number, etc.? Also, I've seen where some individuals have been able to transfer shares held in IRA accounts. Can you point me to any information on how to do that, please?

I see, no that's all you need to do, you just need to request the transfer from your broker's end.

Same with shares held in an IRA?
