First and foremost I like the Stock, and I am here for GAMESTOP. Why? Ryan Cohen, his wrinkly brain, and titanic balls working to DELIGHT CUSTOMERS. Why? This develops wealth for me, the INVESTOR.

Second, below this point is a publicly stated interpretation and OPINION in response to kerfuffle among Gamestop Partners. None of this is formulated out of personal ill-will or malice.

* [Gamestop](<https://www.gamestop.com/>) is one of the corporations that were specifically targeted by immoral, unethical, and most likely criminal Financial Enterprises for their scalps. This is done with equally questionable methodologies and relationships reaching the top of the financial structure, and spanning the globe. It is GME+Investors vs. THE FUCKING WORLD.

> * Gamestop is constructing a digital platform. This platform will use Non-Fungible-Token Technology to identify each serialized asset registered on Blockchains using Blockchain and Inter-Planetary File Systems (Pinata). This platform will be built on Loopring Layer2 Tokenomics and Decentralized Exchange Systems and Technology. Imagine a floating city in the sky. Imagine all the districts and zoning.

* [Loopring](<https://loopring.org/#/>) is a (relatively) Bleeding-Edge Financial Technology Enterprise most closely resembling a start-up. It develops Blockchain Infrastructure, Technology, and Systems on top of Ethereum. It does this using it's Loopring (LRC) Token and Smart Contracts along with specific Partners who provide facilitation services.

> * Loopring is assisting Gamestop in the design, engineering, and construction of Gamestop's Decentralized Exchange on Loopring's Layer 2 built atop the Ethereum (Layer 1) Blockchain. It is the constructor, the materials, and Platform. The NFT Platform is made of Loopring and it's Infrastructure, Systems and Technology. Loopring Tech will also enable transfers in, on, and out of the Platform. Loopring Tech will (possibly) facilitate communication with the outside Blockchain at large.

* [Immutable X](<https://www.immutable.com/>) is a gaming oriented entity that focuses on Tokenized Gaming Experiences, Related Content, and Moving Assets via NFT Technology and Blockchain Technology. It does this via it's own Token, IMX, it's own Ethereum Technology and Systems, and it's specified Partners.

> * Immutable X is providing IMX Tokens to Gamestop in the amount of 150,000,000 IMX as rewards for achievement of [Milestones](<https://news.gamestop.com/node/19586/html>) as defined. It is also funding approximately 100,000,000 IMX to Gamestop as liquidity (funding) for On-Platform Content and Producers. In doing so, IMX has paid to reserve the first perceived 'district/zone' available for Commerical Use. It is also receiving significant opportunity for adoption, brand recognition, and market vectoring. IMX will build their presence and operation on the Gamestop NFT Platform (Loopring D.E.X.) using (assumed) it's own Blockchain Technology and Systems to integrate with the already present Loopring Technology.

Things you would want to know as an potential, current, or future investor in Loopring or ImmutableX.

* Loopring has made questionable decisions regarding their Public Relations. In example, Employees (Authorized Agents) making public statements or comments regarding their products/services and trajectory/realization of adoption with sensational hype inferring Loopring's own MOONING. (All why skirting supposed Non-Disclosure Agreements with Gamestop.) Many people have made their own financial decisions inspired by Loopring's Public Relations and lost significant values of wealth. Loopring has failed to take responsibility for their poor Public Relations, answer raised grievances. They have also censored posts on their subreddit, and removed individuals from their Official Discord Server who raise the issue.

* ImmutableX by the language in the above referenced [8-K](<https://news.gamestop.com/node/19586/html>). Is 1.) Paying for position in line as the first integrating commercial partner on Gamestop's NFT Platform. 2.) Paying for adoption on the Gamestop NFT Platform via usage of its IMX Token as currency for Blockchain and NFT Content Creators. 3.) Being the first commercial partner to build its own Commercial Layer 2 Presence on Gamestop's NFT Platform... ImmutableX's Public Relations conducted by its own Employees (Authorized Agents) uses ambiguous and misleading language as well as equally described [imagery](<https://preview.redd.it/u61a401nngl81.jpg?width=1921&format=jpg&auto=webp&s=6f4c64a88d32a401dbfa7ec9af0381f379bfaafc>) to elbow out Loopring and sensationalize ImmutableX. ImmutableX is not *Powering* the Gamestop NFT Platform as it has said [previously](<https://i.redd.it/hmkb1bvp5xf81.png>). It is not the basis for the Gamestop NFT Platform, but an integrating presence that will integrate after the Gamestop NFT Platform (Loopring Technology and Systems) launches.

Disclaimers:

* I personally invest in Gamestop.

* I personally invest in Loopring.

* I have done my best to be authentic, fair, and impartial in my above Opinion and Interpretations.

* Please do not witch-hunt Gamestop, Loopring, ImmutableX, or Employees thereof based on what you have read above. Please Trust, but Verify. There are plenty of resources on Social Media and on the Internet for you to gather information and judge for yourself.

* BUY. DRS. HODL. MOON.

* None of this is financial advice. I'm actually quite retarded.
