I know it sounds crazy and even I who writes this find it hard to be this the case, but can we step back and look at this event (yesterday) from another angle?

Ryan Cohen has been very outspoken nowadays, even mocking short sellers right in the face. He buys 100 000shares through lit market and even some insiders buy before him. You say a perfect trap?

He mocked the short sellers right into their own demise? What if this was all according to plan by the DOJ and Gamestop, to mimic and witness the manipulation of hedgefunds and yesterday was the perfect bear trap to catch, well, bears?
