So I initiated a DRS transfer like a month ago or something and Im still waitin for the first letter.

And yesterdays events with halting got me thinking what if moars starts and price goes into dark corners of milky way and I cant do shit about it, except watch, cry and ocasionaly smash some shit around the house...

Is there a way around it?

Cos my gme shares are most likely already on CS I just need a fucking letter. Two letters even.
