As the debt is now coming due, and Kenny is probably desperate to find a counterparty to onboard his fucking market crashing sized crime bag. I have been asked to update a previous DD I made in hopes other apes can add more now. Please share this and comment anything you find relevant.

7 4 1 and the huge bag of illegal naked synthetic shorts.

I found a document filed by Dreyfus Florida Municipal Money Market Fund in 2007

<https://www.sec.gov/Archives/edgar/data/911746/000091174607000015/form-741.htm>

Form 741 as described by this ape - [https://www.reddit.com/r/Superstonk/comments/q8cf95/sec\\_form\\_741/?utm\\_medium=android\\_app&utm\\_source=share](https://www.reddit.com/r/Superstonk/comments/q8cf95/sec_form_741/?utm_medium=android_app&utm_source=share)

The Dreyfus name rang a bell...So I dug a little bit deeper.

Guess who owns that fund?

BNY Mellon

<https://im.bnymellon.com/us/en/>

Guess who clears Kennys trades?

Guess who holds the "Brazilian Puts"

Guess what fund Goldman had to bail out to prevent dominos. Dreyfus

Goldman also has a bunch of Dreyfus in their company

<https://www.google.com/amp/s/ca.wallmine.com/people/65605/maria-s-dreyfus.amp>

Again

<https://www.linkedin.com/in/daniel-dreyfus-b65554209>

Goldman also showing evidence of being in bed with Mellon/Dreyfus when shit was getting real - [https://www.reddit.com/r/Superstonk/comments/q50q3j/was\\_bny\\_mellon\\_taken\\_over\\_by\\_goldman\\_from\\_the/?utm\\_medium=android\\_app&utm\\_source=share](https://www.reddit.com/r/Superstonk/comments/q50q3j/was_bny_mellon_taken_over_by_goldman_from_the/?utm_medium=android_app&utm_source=share)

Im sure you can all find how intertwined this name is at Goldman. Be helpful to get more eyes here

Because Fidelity fucked with apes today, good to know whos been breathing down Fidelitys neck for shares to borrow - "Fidelity uses an unaffiliated securities lending agent, \*\*Goldman Sachs\*\*, for its equity funds."

Since 2017 this is the likely the fund used to naked short GME to oblivion, likely others too. But one eerie point stood out to me 741 - I shit you not. go look for yourself. 741B

BNY Mellon's Dreyfus Corporation serves as the investment manager of the fund, and MBSC Securities Corporation, a wholly owned subsidiary of Dreyfus, serves as the fund's distributor. The fund is sub-advised by Pareto Investment Management Limited, an affiliate of Dreyfus and a wholly-owned subsidiary of Insight Investment Management Limited ("Insight" or "Insight Investment"), a BNY Mellon investment boutique with \$741 billion under management globally2.

Found some compelling evidence from DFV. yeah thats right. Look at the dates vs gme share price, whats her name? Why would she be relieved?

And then Daves tweet below, pushed me to Seinfeld again.... [https://www.reddit.com/r/Superstonk/comments/q87vjy/what\\_do\\_the\\_numbers\\_mean\\_mason/?utm\\_medium=android\\_app&utm\\_source=share](https://www.reddit.com/r/Superstonk/comments/q87vjy/what_do_the_numbers_mean_mason/?utm_medium=android_app&utm_source=share)

Dave almost instantly deleted this tweet. Dave never deletes tweets.... Look at the title of the post. Look at the format of the tweet! "whats the deal" ... remind you of a certain sitcom?

I believe I have found out who is colluding with Kenny and Co to hide, recycle, and naked short GME via deep options and dirty swaps. This is the entity spoken about but not named in this recent DD - <https://threadder.app/thread/1441157342045749253>

Im now getting very confident about this, and a huge bag of these puts expires tomorrow as per the briefly visible Bloomberg Terminal 150 puts showed. T+35 puts us exactly at the absolute end of this wedge End of Nov. to end of dec.

DFV tweeting twice Elaine Dreyfus relieved and wanting to move on.. just after our spike to 350ish... yeah there is something here. I think Dreyfus fund, that holds alot of celebrities' money, is about to get rekt. I see you Michael Jordan ■

A recent Burry tweet #GMESQUEEZE shows a sheet with Merrill Lynch shorting into GME buyback to avoid being squeezed. Merrill.... are you connected to this toxic Dreyfus bag.... didnt take long to find that answer.

A look into Dreyfus has uncovered some dark shit. But notable names be showing up on page 55 of their Mutual Fund Disclosure in 2008! Oh hello Merrill Lynch and every other bad actor garbage shit fund...

Merrill Lynch, HSBC, Leeman, Credit Suisse. 2008 never ended...just got kicked.

<https://www.google.com/url?sa=t&source=web&rct=j&url=https://www.sec.gov/Archives/edgar/data/30160/000003016008000005/dmmi485.pdf&ved;=2ahUKEwjzvryjwcvzAhUfknIEHWC5A48QFnoECA8QAQ&u sg;=AOvVaw0kR-5Ewsv8BhZihy0Diti1>

and on page 56 we have a link to dreyfus.com  
who is the manager of the fund right. Do me a favor visit dreyfus.com

Where does it redirect.... BNY Mellon

Oh buddy, I have found the counterparty who took the bad bet from Kenny and co.

Look at BNY Mellons CUSIP number, familiar?  
<https://im.bnymellon.com/us/en/individual/funds/05587K741>

Edit: Since my original DD, they have killed this link ■

But use a CUSIP lookup - 05587K741

Edit 2: Banker ape looked up the CUSIP and noted that it was originally different changed on 06/03/2019  
"The original cusip was 86271F768. It was called Strategic FDS INC or Dreyfus INTL STCK-1 FUND"

Kenny onboarding Sr execs from Mellon to work this problem internally

[https://www.reddit.com/r/Superstonk/comments/r5u5w8/kenneth\\_griffin\\_hired\\_the\\_vice\\_president\\_of\\_bny/?utm\\_medium=android\\_app&utm\\_source=share](https://www.reddit.com/r/Superstonk/comments/r5u5w8/kenneth_griffin_hired_the_vice_president_of_bny/?utm_medium=android_app&utm_source=share)

Do you see what Im saying here? Look into Dreyfus and you shall find the trail to Kenny. Looking forward to other wrinkles getting their heads around this.

A message to two specific people. I await the sign. You know who you are

Message to all apes. DRS is the only way you can fight this. Options are only for those who are professionals and exercise(DFV) at any and all cost no matter what ITM or OTM. Shout out to that tard who exercised last week way otm, you are a hero. If you play options, you MUST be as retarded as you can and exercise every single one(the algos cant beat this just like they cant beat holding. DRS Exercise DRS

Edit: I have some new information that has been presented to me that could possibly link RRP Treasuries and a toxic swap(rated AA but actually naked shorts) suspected to be held by Dreyfus/Mellon. I will refrain from including until the sources and logic are sound. There will be a part 2 if so.
