We all know about the million tons of propaganda being dumped on us every day to discredit GME, and attempt to crush our spirit and weaken resolve.

Saturday I did some kind of ordinary Google search that included the "keyword" GME. I think it was "tips voting GME". We already know that the American media is bought and paid for, but what I saw Saturday is new to me.

I've been a Google customer since 2003. I know what you have to pay for, and what you get free. Paid clicks can cost big money.

Hedgie crooks are evidently BUYING massive amounts of Google ads, to place negative bullshit lies about Gamestop. Every single video ad I was offered was heinous propaganda, and shills were crawling on their reptilian bellies in other paid categories, too.

Not just 'Cramer & Forbes & Business Insider', trash, hey are buying batshit-crazy stuff, \*\*\*"Get out while you can!!! Gamestop owners have all sold their stock!!"\*\*\*

In the organic listings, the lies were on page 1-2 (clicks on paid ads influence organics). Anything real or positive was buried deep.

SEO Apes, does everyone know about this? I've never heard a peep on here. If someone tells me they aren't even paying for these expensive ads...holy crap.
