I realize this is not a political sub however please hear me out as this does relate to GME and text posting is not allowed on the political subs (which is insane to me)!

To be read in movie voice over guys voice..... In a world where corrupt politicians and banks run the economy one "failing brick and mortar" changed it's business model and therefore.....changed History!

Although I do not completely understand DeFi, blockchains or NFT's my hope is that these will ALL change our current government structure and economy!

If this post is not allowed on r/GME please direct me to the appropriate sub as this realization just hit me like a ton of bricks!
