New apes and investors, veteran apes and investors, this might be a crazy fun week, might not. Regardless, funds will hunt stop losses. They don't share the details of their game plan with you, no need to share yours with them.

I need to make like GameStop and split now, so enjoy the fun! And while you're at it, today would be a great day to DRS more shares (well, actually any day would be a good day for that).
