How the fucking fuck is the price so fucking low? What the actual fuck? GME is at quite the discount right now but I actually need someone to explain why. I don't know how I want you to explain why, I just want a logical answer that isn't crime because I refuse to believe it's crime at this point, we can't be getting bent over like this by hedgefucker; let's assume it is crime, if it isn't getting prevented now why will it be prevented next week?

Edit: I appreciate I haven't been downvoted in to oblivion so far, this is one piece of evidence of evolution, apes are evolving and you aren't insulting me.

Just so you all know: I am not a paperhanded bitch I still have and own all of my shares.
