Unwrinkled ape here pondering how all the other theories can work into rewards for shareholders that hedgies can't duplicate and are connected to GME's upcoming potential

1. NFT shares on the block chain?
2. Shares of GMerica?
3. A Loopring holding equivalent to market price of 3 shares after a merger happens? Loopring does tweet out 741 too. ■
4. NFT share of Wu Tang Album

Any of this possible to be part of the good ole one-two punch?
