The price of gme hasn't gone past \$250 in over a year now.

DRS is supposed to be working yet the price is almost below \$100.

People are losing a metric shit ton of money right now.

Ryan Cohen and everybody need to get on the ball and the SEC needs to get these shorts to close.

If the moass doesn't happen I'm done with the stock market and I'm going to be in the news.
