One interpretation of RC's latest tweet is we might have some runs today. I like him and his (and our) company, and do everything I can to support them, including not using stop losses.

If the share price is up, down, or sideways today, we can all help by buying if we can, registering via CS any shares we might have forgotten about in other brokers, and shopping GameStop.

You bought your tickets, now eat some fruit and enjoy the ride!
