Hey guys I saw the post where it listed all the stuff now banned from the marketplace. I get the copyright claimed stuff going down but it seems like some of the stonk and DFV references and such caught creators and customers off guard. Has anyone who purchased these now suspended NFTs been able to get a refund from GameStop or the creator? And if it was from the creator was it out of their kindness or did GameStop somehow force them to? I am a true tard and sold my Cyber Crew NFTs to buy 5 super stonk collection items cause I got a little too excited going into the split lol. Mistakes were made...
