I have an itchy-anus, smooth brain theory that Ryan Cohen's number of tweets is a progress bar for it to happen. Think about it, we're at 94 tweets right now and things are heating up. Even the most casual of gamers are familiar with a progress bar/software update. Things may get very interesting/chaotic/volatile/euphoric once big RC drops tweet #100

Disclaimer: not financial advice, I am smooth and the world is rough, DRS is the way
