Ok so after buying 1 GME share on IBKR and transferring to Computershare I now have an active account for DRSing ready to go.

However, all my stock that I have been buying over the last year is locked up with Trading212. They currently do not allow stock transfers although their customer service suggest that this will be enabled sometime in the new year.

Obviously I can't trust waiting on this feature to arrive at anytime so do people have any idea of how I can get my shares into IBKR or CS.

Thanks in advance. Moon soon ■■
