These piñatas deserve another look.

Back in February Ryan Cohen asked "who is going to be the piñata for all this inflation?" with a SUS ■ emoji.

If you search for "piñatas" on GameStop's website or mobile app, you will find three "GameStop Exclusive" plush toy "Pain Party piñatas." There's a *unicorn named "Splits," a *kitty with a pirate patch* ■■■■■, and a *crying whale.* They are each "*7-inches tall*" (and yes, it literally says that 4 times in the description for each one ... 7-4-1). Check it out:

I think the unicorn is GME. It's a once in a lifetime opportunity, about to split. Maybe 7-for-1?

I think the cat is DFV. It's a fucking cat wearing a pirate patch, the symbol for GMErica. GameStop has recently been flying the Jolly Roger, and a few weeks ago GameStop replied to someone on twitter with a yawning cat to say goodnight. They're sending DFV vibes and they know it.

Lastly, I think the crying whale might be Jeff Yass, the cofounder and director of SUSquehanna International. He is the very definition of a "whale" -- a gambler who wagers large sums of money, and who might get credit from a casino to keep on betting.

WTF did that come from?)

So . . . When does the "pain party" start?

Edit: I can't find the unicorn right now (sold out?) but I know it was there. Here's a post from another sub about it from a while back. https://www.reddit.com/r/Superstonk/comments/tw1j0u/so_gamestop_sells_an_exclusive_party_pinata_its/?utm_source=share&utm_medium=ios_app&utm_name=iossmf

I also have screenshots in my phone that I can upload tomorrow. Can't figure out how to do it right now using the mobile app.
