I am calling out all Apes to come together to help this Ape, u/[**Otakutech2020**](<https://www.reddit.com/user/Otakutech2020/>) and others in the same situation. In a recent recent post I made, he said "I have the capital to double my position but the wife won't let me ■■■"

Do we have success stories from apes who were able to convince their wives/partners to go ahead and make the most important investment in their life in GME? Let's not stop with the ideas until we have his wife's approval. I suspect many other apes are bound from the same partner restriction.

Let the ideas flow...
