So saw this article about the US govt seizing and selling Russian oligarchs assets to aid Ukraine. While I am all for helping Ukraine. What I don't like is that there was no due process... AOC does raise a valid point

Could this have any implications for the future gains from our beloved GME? What if something like this is used against this revolution. It is not without a precedent - The gold seizure of 1933 is a prime example.

How can we protect ourselves from forceful seizure by the govt.? We all know who is bankrolling these politicians.
