Hi, more than a week ago, I asked a Fidelity rep to transfer GME shares to Computershare, and I saw the shares leave the account early last week and have a reference number but I still haven't received any info from Computershare nor did I get any info about how long it would take from the Computershare support chat.

I'm feeling a bit anxious/impatient...but mostly because I have no idea what is going on or how long this process generally takes.

How long did it take for you to do the first transfer and receive account info if you did not have a Computershare account to begin with?
