Is\_self: True

I am working on a site (off Reddit) that details the corruption and inequity in the US financial markets. I am brainstorming a list of topics I want to cover, but would love some input. Please throw a section in the comments you think you would like to see if you were an everyday person just learning about this stuff--I want this to be a place that is clear, fact-based and accessible to people who are new to the markets in general. Not just apes. Everyone.
