

Title: Done FULL DRS of all GME shares, Non-US ape having investment via private UK limited company. What options are to instruct Computershare to sell the ONE share during MOASS ? (NO FUD or CHILL, genuine problem I have).

ALL my GME shares are already with Computershare (I buy more via CS or brokers).

****The individual Online account works fine and I have bought some more via CS, (everybody please DRS your shares).****

I have also some investments via my private (100%owned) UK limited company.

Of course I have also DRS my GME shares already and have the online access working fine.

****BUT for "corporate" online account NO buying or selling is available**, kind of read only access to the holding of shares.**

CS support gave me following options as the only way to move shares and only by paper requests:

****Option 1:**** *A written request signed by an authorized individual of the corporation. An original Corporate Resolution* ***with raised seal*** *if proceeds are being sent to AOR* *dated within 180 days that states the authorized signer. The Corporate Resolution may not be certified by the authorized signer.*

****Option 2:**** *A written request signed by an authorized individual of the corporation with a Medallion Signature Guarantee stamp.*

Does anyone have more info on CS Corporate accounts and possible easier way to sell ONE share?

Thanks for your support and suggestions, either by comments or DM.
