## ← [DriveWealth] Re: Outbound DR...

We will need a copy of your Computershare account statement. We have seen an increase in transfer rejections from Computershare. Repeat DRS Transfer requests are being rejected or duplicate accounts are being created. An account statement from an existing Computershare account is needed to prevent this from happening. Our goal is to ensure your shares are transferred to your existing account. If you are unsure of how to obtain a copy of your latest Computershare account statement, please reach out to Computershare directly who can better assist you.

We can proceed with processing your current transfer request, however, we are unable to include the Computershare account number. Please confirm that you would like to proceed with this transfer request and understand the possibility of a duplicate account being created with Computershare.
