Well Mayo Force 2 flew from Midway International Airport in downtown Chicago and landed at Westchester County Airport in NY, on the Ct/NY boarder next to Greenwich/Stamford CT Saturday 1/8/22, where it spent the night. Greenwich and Stamford are to home to many, many Hedge Funds more than Manhattan has. Greenwich is also the home of Thomas Peterffy (the founder of and the largest shareholder of Interactive Brokers). If you want to have a good read look at my profile and look up my last post before this one. Be sure to read all the comments and you will have a good read and a good laugh. Well in that post a commenter stated that this means shit and we don't even know Kenny boy or anyone related to him is on these Jets. Could be right and he/she or whatever could be wrong. There is a lot of circumstantial evidence suggesting otherwise as you will see in that post.

Anyway back to Mayo Force 2. After spending the night at Westchester Mayo Force 2 today Sunday 1/9/22 flew to Palm Beach International Airport in West Palm Florida. Mayo Force 1 has been inactive for a week sitting at Midway International Airport in downtown Chicago. I just assumed it was down for maintenance ?We'll what do you know today Sunday 1/9/22 Mayo Force 1 took off from Midway International Airport in downtown Chicago and landed in Palm Beach International in West Palm Florida at exactly 6:00 PM EST just where Mayo Force 2 just happens to be sitting on the tarmac ? Well 15 minutes after Mayo Force 1 landed Mayo Force 2 took off and flew to Chicago. 15 minutes after Mayo Force 2 took off Mayo Force 1 took off and flew to Teterborow Airport 12 miles outside of Manhattan. These two Jets are based out of Midway International Airport and land and take off out of the same airports over and over again. Most of these airports are in cities that have a known relationship to Kenny boy. To me it hard to not think these Jets are carrying Kenny boy and company. For a better grasp of what I am saying please read my previous post and don't forget to read the comments. GME to the moon !■Take Care Folks !

Edit : After spending all of about 45 minutes on the ground at Teterborow Airport in New Jersey Mayo Force 1 is back on its way to Midway International Airport in downtown Chicago. Currently over Western Pennsylvania at 10:00 PM EST at 43,000 ft and 410 knots.
