Sooo sometimes i glance at swaggy stocks to see the beautiful Gamestop gamma ramp. EXCEPT THIS WEEK! The puts FAR OUTNUMBER the calls, makes em look pathetic! This has never happened before, each and every week the calls have been FAR outnumbering the puts since the sneeze, pretty much.

[Um yeah okay, calls outnumber puts 10:1 normally. EXCEPT THIS WEEK! It's backwards this week!](<https://preview.redd.it/3sgxlt6vnvi91.jpg?width=1648&format=jpg&auto=webp&s=c2e0f2df9bda66bc6e191799fce26411308b69b5>)

Uhhh.. just one of those strike prices with 100M+ contracts represents 10B+ shares...

This makes me think of that DD talking about married/divorced puts (the author disappeared from ALL their shared social media): [https://www.reddit.com/r/Superstonk/comments/paok7a/update_to_my_divorced_puts_dd_and_how_it_still/](https://www.reddit.com/r/Superstonk/comments/paok7a/update_to_my_divorced_puts_dd_and_how_it_still/)

Are these possibly from shorts getting shit on by Splividendgeddon™? i think these contracts were written pre-splividend since they're in increments of .25 instead of round dollars. i'm smooth as fuck and my crayons are too deep up my nostrils, unchewed like, "OOK OOK DEFENSE! OOK OOK DEFENSE!"

i don't know how reliable swaggy data is, i don't know where they get their data from or how to look that up (i'm an electrical ape, not a financial ape.) i can't find these contracts in other option chain displaying websites.

It's probably a glitch, but if it's the truth peeking out as some apes suspect, Holy Hell! Just eye-ballin the chart, these puts are representative of 10s of billions, maybe 100B+ shares. Yes, they're OTM so they expire worthless but according to the divorced put DD, the market maker might be counterfeiting that many shares. Maybe it'll pop up again on FTD data later next month?

Also.. is this stuff relevant? [https://twitter.com/T_L_B_S_/status/1424833306781159433](https://twitter.com/T_L_B_S_/status/1424833306781159433)

i don't recommend options unless you're wrinkley with the greeks AND a degenerate gambler. i just wanted to call attention to AnOtHeR gLiTcH with impossible numbers that i've never seen before. Sure as fuck made me go WOW! last night. Not financial advice.

Buy. HODL or HOLD. DRS 55% LFG! OOK OOK DEFENSE!
