

Title: I'll say it, I would rather see 10% growths every 15-20 minutes than see ticker halts every 10.

I am loving the less rapid wind up on gme right now rather than the usual:

1. rapid increase
2. Ticker halt
3. Hedge funds find time for more money
4. Ticker unhalt
5. Expected short drop.

What yall think?
