You think with the severity the economy has been from the last 4 months alone would raise some eyebrows over at HBO. This may have been a strong hit from the bong but I feel like "online community discovers, documented, and dismantling corrupted Wall Street as it shits down America's throat before she imploded 1000x worse than '08" would fit right into his mission of call out bs in the American system. And for fuck sake the saving grace is GameStop! This shit writes itself. Just weed for thoughts.
