So for a year now I been buying a few garlic baguettes a week from Walmart and its one the few items I've ever seen that was \$1.00 even, none of that .99 bullshit. And these aren't fancy artisan breads or anything so I'm sure they are pure profit per loaf.

Anyway, haven't gone to Walmart for the last month but I just picked up a couple loafes for \$1.10 which makes me think inflation is up 10%

Off topic suggestion, GME needs to carry some food stuffs
