For no reason at all I just feel it in my loins - GME is going to make us real happy 7/1/22. I know I know, but hear me out. No one knows when, if ever this baby will explode. So to make this fun I am going old school like way back to February 2021 when I walked around for months in denial thinking I was already a multi millionaire. Then I came back to reality last summer and realized there might be a 1% chance this shit happens. All I know is I'm holding - and for the next 2 nights I'm going to go to bed pretending that this Friday is OUR day and I will be rich. A retard can dream too right? Worst post ever!
