**Dear Mr. Blair,**

We believe that investing should be accessible to everyone, including those who work all day or are always on the go. That's why we offer extended trading hours via Tradegate Exchange, allowing you to trade over 10,000 securities from all over the world from 7:00 - 21:00. For local stocks, this means pre-market and after-hours trading:

- Pre-market trading **7:00-8:00**
- After hours trading **16:30-**
