No clue if this community is still even active or anything, but I just got banned out of Superstonk. All my posts are marked as "spam", including my purple circles. I've received no notification for the reasoning of my ban, and any posts I make over there aren't actually going through any longer.

I've said it before and I'll say it again, the mods at Superstonk are the shills and the whole sub is compromised to the highest degree. That's why you see the most retarded of posts gain traction, while everything else gets drowned out.

Do with that info as you will. Good thing I don't actually need reddit to buy, hold, and DRS my favorite stonk - GME!
